## INTRODUCTORY NOTE.

---

The Towns of Braintree, Quincy, Randolph and Holbrook, which formerly composed the Town of Braintree, at their several annual meetings held in the year 1885, voted to print the records of the Town of Braintree from the date of the incorporation to the year 1793, and severally selected the following persons to carry said vote into effect :

CHARLES F. ADAMS, Jr., GEORGE L. GILL, EBENEZER W. UNDERWOOD,	} of Quincy.
FRANCIS A. HOBART, SAMUEL A. BATES, HORACE ABERCROMBIE,	} of Braintree.
ROYAL T. MANN, JOHN B. THAYER, RUFUS A. THAYER,	} of Randolph.
GEORGE W. PAINE, SAMUEL L. WHITE, ABRAM C. HOLBROOK,	} of Holbrook.

Samuel A. Bates, town clerk of Braintree, was selected to take charge of the publication of the records, and they have been printed under his personal supervision.

They were printed from the copy made under the direction of the Town of Quincy in 1876, and the proof read from the original, of which they are intended to be an exact transcript. It was found impossible to index all the various ways in which names were spelled, and they are therefore placed under their proper orthography, as far as known.

Words in brackets were supplied by the editor.

1<sup>st</sup>. We do hereby Resign & Deliver up to the Town the common Land held by us in Virtue of said Lease.

2<sup>d</sup>. That during the whole term of our Lease we have laboured under the greatest Discouragements & have been great sufferers by reason of an open way laid out through said land, after said Leases were executed. For altho' we repeatedly attempted to fence against the same by a sufficient stone wall, yet we were as often Prevented by certain unknown evil minded Persons who as fast as we built up the wall by Day did in the Night time throw the same down again by which means and Innumerable other Trespasses upon the Premises which could neither be foreseen nor prevented, We have been unexpectedly deprived of the greatest part of Profits we hoped to reap by our Improvement of said Lands

so that upon the whole we are very certain all the Benefit we have derived from said Lands will not Recompense the Labour & expense we have been at in making stone wall round the same.

[213] 3<sup>d</sup>. If the Town should not think Proper to consider our case but should insist upon the fulfilling the conditions of our Lease. We beg leave to Propose to the Town that all matters in Dispute between the Town & us Relating to said Lease & the Lands we have occupied by virtue thereof, be left to the Judgment & final Determination of three or five indifferent Men to be chosen mutually by a Committee of the Towns to be appointed & impowered for that purpose & ourselves and upon s<sup>d</sup> Referees being so mutually chosen & impowered we do hereby Promise to join issue with the s<sup>d</sup> Com<sup>tee</sup> and to execute Bonds of Arbitration according to Law thereby obliging ourselves to abide by their award all which is humbly offer<sup>d</sup> to the Towns consideration by

John Hayward be a Com<sup>tee</sup> to draw instructions for their Representative & present the same to the Town. The aforesaid Com<sup>tee</sup> Presented the following draught To the Town.

To Ebenezer Thayer Esq<sup>r</sup>.

Stamp Duty impleaded. Sir/ In all the Calamities that have ever befallen this Country, we have never felt so great a Concern nor so many alarming apprehensions as at this time. Such is our Loyalty to the King, such our veneration for both Houses of Parliament, and such our Friendship to all our fellow subjects in Britain that measures which seem to discover any unkindness towards us in that Country are the more sensibly & intimately felt. And we can no longer forbear Complaining that many of the measures of the late ministry and some of the late Acts of Parliament have a Tendency in our apprehension to divest us of some of our most Essential Rights and Liberties. We shall confine ourselves however chiefly to the Act of Parliament commonly called the Stamp Act, by which a very burthensome and in our opinion unconstitutional Tax is to be laid upon us all, and we are subjected, to numerous & enormous Penalties which are to be prosecuted, sued for & recovered at the option of an Informer at a Court of Admiralty without a Jury. We have called this a burthensome Tax because the duties are so numerous & so high & the embarrasments to Business in this infant, sparsely settled Country so great that it would be totally impossible for the people to subsist under it even if we had no controversy att all about the Right & authority of imposing it considering the present scarcity of money. We have reason to think the execution of that act for a short space of time would dreign the Country of Cash, strip multitudes of the poorer people of all their property and Reduce them to absolute beggary. And what the consequence would be of so sudden a shock and such a convulsive change in the whole course of our business & Subsistance to the peace of the Province, We tremble to consider.

We further apprehend this Tax to be unconstitutional. By the great Charter no ameriement shall be assessed but by the oath of Honest & Lawfull men of the vicinage. And by the same Charter no Freeman shall be taken or imprisoned or be disseised of his Freehold or Liberties or Free Customs, nor passed upon nor condemned but by Lawfull Judgment of his Peers [235] or by the Law of the Land. And we have always understood it to be a grand & fundamental principal of the British Constitution that no Freeman should be subjected to any Tax to which he has not given his own consent in person or by proxy. And the maxims of the Law as we have constantly Rec<sup>d</sup> them are to the same effect. That no Freeman can be seperated from his property but by his own act or Fault. We take it clearly therefore to be inconsistent with the spirit of the Common Law & of the essential Fundamental principles of the British Constitution that we should be subjected to any Tax imposed by the British Parliament because we are not Represented in that assembly in any sense unless it be by a Fiction of Law as insensible in Theory as it would be Injurious in Fact if so heavy a Taxation should be grounded on it.

But the most Greivous of all is the alarming extension of the Powers of Court of Admiralty. In the Courts one Judge presides alone, no Juries have any concern there, the Law and the Fact are to be decided by the same single Judge, whose commission is only during pleasure and with whom as we are told the most mischievous of all customs has become establish<sup>d</sup> that of taking commissions on all Condemnations, so that he is under a pecuniary temptation always against the subject.

Now if the wisdom of the Mother Country has thought the Independence of the Judge so essential to an impartial Administration of Justice as to render them Independent of any power on Earth, Independent of the King the Lords the Commons & the People nay Independent in Hope & expectation of the Heir apparent by continuing their Commissions in case of a Demise of the Crown, What Justice & Impartiality are we at Three Thousand miles distance from the fountain to expect from such a Judge of Admiralty. We all along thought the Acts of Trade in this Respects a grievance, But the Stamp Act has erected a vast numbers of Sources of New Crimes which may be Committed by any man and cannot but be committed by multitudes and Prodigious Penalties are annex<sup>d</sup> and all these to be tryed by such a Judge of such a Court. What can be wanting after this but a weak or wicked Man for a Judge to Render us the most sordid & forlorn of Slaves. We mean the slaves of a slave of the Servant of a Minister of State.

We cannot help asserting therefore that this part of the Act will make an Essential Change in the Constitution of Juries with Regard to us is directly repugnant to Magna Charta itself and will make such a distinction & Create such a difference between Great Brittain & America as we could not have expected from the Guardian of Liberty in both.

As these sir are our sentiments of that Act we the Freeholders & other Inhabitants Legally assembled for that purpose must enjoin it upon you to comply with no measures or Proposals for Countenancing the same or assisting in the execution of it but by all Lawfull means consistent with our allegiance to the King and Relation to Great Britain to oppose the execution of it till We can hear the success of the Cries & Petitions of America for relief.

[236] We further Recommend the most Clear & explicit assertion and vindication of our Rights & Liberties to be entered on the Public Records that the world may know in the Present & all future Generations, that we have a clear knowledge and a just sense of those Rights & Liberties and that with submission to divine Providence, we never can be slaves.

Nor can We think it advisable to agree to any steps for the Protection of Stamp Papers or Stamp offices, good & wholesome Laws we have already for the Preservation of the Public peace

And we apprehend there is no further danger of Tumults & disorders to which we have a well grounded aversion, and that any extraordinary and expensive exertions would tend to exasperate the People and endanger the Public tranquility rather than the contrary

Indeed we cannot too often Inculcate upon you our desires that all extraordinary & expensive Grants & Measures may upon all occasions as much as possible be avoided.

The Public money of this Country is the Toil & Labour of the people who are under many uncommon difficulties & Distresses at this time so that all reasonable Frugality ought to be observed.

And we would Recommend Partienlarly the strictest care and Firmness to prevent all unconstitutional Draughts upon the Public Treasury. And we cannot avoid saying that if a particular enquiry into the state of that Treasury should at the first leasure opportunity be promoted and an exact state of it published to the People it would have a very good & useful tendency

All which is Humbly submitted by the Com<sup>tee</sup> of the Town of Braintree to draw Instructions to their Representative.

Voted, To instruct the s<sup>d</sup> Committee respecting their conduct in that affair. Instructions being prepar<sup>d</sup> for that purpose was read before the Town and Voted accepted order<sup>d</sup> that said Committee conform thereto.

Said instructions are as follows, (viz)  
Gentlemen.

You are sensible that the subject of our most serious consideration this Day has been the distressed circumstances of the continent in General & of this Province in particular, especially under their present alarming apprehensions of a military Power which if not already arrived is daily expected, design<sup>d</sup> (as we are informed) to enforce certain acts of the British Parliament by which our money is to be drawn from us without our consent attended with this mallancholly circumstance of Agravation, that in this dark & difficult season we are deprived of the Councillis of a Generall assembly. You are also sensible that the result of our Deliberations thereon is to pursue the steps pointed out to us and Put in Practice by our Brethren of the Town of Boston. in consequence of which you are chosen and appointed by this Town to act for them as a Committee of convention with such as may be sent to join with you from the several Towns in this Province in order to consult Determine upon and pursue unitedly such measures, as may be conducive to [253] his Majesty's service and the peace safety & welfare of his subjects in this Province, The Importance of the Trust reposed in you is as great perhaps as can be delegated by any civil society to any of its members, Than which you can have no greater Proof of their Confidence in your fidelity and dependence upon your inclination and endeavours to serve them to the utmost of your Ability

The measures now agreed upon is the last & perhaps the only safe resource of a Free People in their civil capacity and God forbid we should ever be reduced to the dreadfull necessity of acting in any other.

It is true our most Humble dutifull and truly Loyall suplications to his Majesty and his ministers for redress, of those grievances we already feel and for security against greater we have reason to fear have hitherto been ineffectual or rather attended with Effects that instead of diminishing have greatly increased them. However thanks to Almighty God such is the Strength of the British Constitution as secured to us by Magna charter, the Bill of Rights and the Act of Settlement at the revolution that it is not in the Power even of a British Parliament to deprive any one or any Number of his Majestys subjects of their malienable Right of applying to him and his Parliament by Petition for Relief & Redress, of any public grievance which we apprehend ourselves labouring under and of which we are left to judge, of this inestimable Privilege then let us avail ourselves. And since in all probability one cause why our former Applications have been despised & neglected is that they

have been represented as the sentiments of a small part only and not of the People in general. It is therefore our earnest request & Desire you would exert your best endeavours that a Printed form of an Humble Dutifull & Loyall Petition to the King and Parliament may be prepared and sent to each Town in the Province to be by them considered and Determined upon by Positive and Negative votes and the number of each to be taken by an exact scrutiny. By this method if properly pursued his Majesty and his ministers as well as the Parliament and whole Nation will be able to Determine with certainty whether our petitions are or are not the weak efforts of an expiring faction.

[254] We have only to add our humble and ardent supplications that you may be so directed by infinite Wisdom in all your Councils and Decisions with your Brethren in Convention as that nothing may be said or done which even by Implication can fairly be construed into any Degree of undutifullness to his Majesty disrespectfull to his Parliament or inconsistant with that happy constitution of Government under which we live, and that whilst our Governors demand and expect our Allegiance which they have Indisputable Right to, we in Return may receive that Protection and Favour and be secured in the peaceable enjoyment of those Liberties & Priviledges which we have an equall Right to as naturall and free born subjects.

The foregoing is a true copy of the Towns Instructions to their committee for convention.

Day of Prayer. The Town having under their consideration the Distressing and Alarming circumstances they were now subjected to as also those impending: concluding it to be the Duty of a people professing Godliness to address the Supreme Governor of the universe in a social as well as in a more private manner, for the Removing the evils they feel as also the averting those they fear, Voted, the Selectmen be Desired and Directed to wait on the Ministers of the several congregations in this Town Requesting that they would keep Tuesday the fourth Day of October next as a Day of Humiliation & Prayer and that they notify their respective congregations thereof the next Sabbath.

N.B. The above request was complied with by all the Dissenting Ministers in the Town.

1773 March 1<sup>st</sup>.

To the Town of Braintree in Town Meeting assembled

We your Committee have most seriously considered the matter committed to us this day & Report.

1<sup>st</sup>. That we apprehend the state of the rights of the colonists & of this Province in particular together with a list of the infringements & violations of those rights as stated in the Pamphlet committed to us are in general fairly represented, and that the Town of Boston be hereby thanked for this Instance of their extraordinary care of the public welfare.

2<sup>d</sup>. That all Taxations by what name soever called, imposed upon us without our consent by any earthly power are unconstitutional, oppressive & tend to enslave us.

3<sup>d</sup>. That as our Fathers left their native Country & Friends in order, that they and their Posterity might enjoy that civil & religious Liberty here which they could not enjoy there We their descendants are determined by the grace of God that our consciences shall [273] not accuse us with having acted unworthy such pious and venerable Heroes and that we will by all Lawfull ways and means preserve at all events all our civil and religious rights and priviledges.

4<sup>th</sup>. That by the divine constitution of things, there is such a connection between civil & religious Liberty that in whatever nation or government the one is crushed the other Seldom if ever survives long after, of this History furnishes abundant evidence.

5<sup>th</sup>. That all Civil officers are or ought to be Servants to the people & dependent upon them for their official support, and every instance to the contrary from the Governor downward tends to crush & destroy Civil liberty.

6<sup>th</sup>. That we bear true loyalty to our Lawfull King George the 3<sup>d</sup>. and unfeigned affection to our Brethren in Great Britain & Ireland and to all our Sister Colonies, and so long as our mother country

protects us in our Charter rights & priviledges so long will we by divine assistance exert our utmost to promote the welfare of the whole British Empire which we earnestly pray may flourish uninterruptedly in the paths of righteousness, till time shall be no more.

7<sup>th</sup>. That Mr. Thayer our Representative be directed & he hereby is directed to use his utmost endeavours that a Day of Fasting and Prayer be appointed throughout the Province for humbling ourselves before God in this day of darkness and empling divine direction & assistance.

8<sup>th</sup>. That an attested copy of the Towns proceedings in this matter be transmitted as soon as may be by the Town Clerk to the Boston Committee

All which is humbly submitted by the Towns Com<sup>tee</sup> & hum<sup>blis</sup> serv<sup>ts</sup>.

1774, March 11<sup>th</sup>.

Publick affairs. Then the Meeting proceeded to the consideration of our Publick affairs, & the following Draught or report was laid before the Town, viz.

We have reason to be alarmed when all that is dear to us is at stake and there can be nothing more influencing than the danger of loosing our civil & Religious Priviledges, Benefits in themselves truly valuable, and obtained at such expense of treasure & toil attended with such Hazards & Hardships as not parrallel<sup>d</sup> in History. The recovery of such as are abridg<sup>d</sup> & preserving those that remain will undoubtedly be judged objects worthy the highest attention. The declarative right of the British Parliam<sup>t</sup>. to tax the american colonies without their consent, and to make Laws binding on them in all cases whatsoever is evidently repugnant to the views our Predecessors had their Previledges, and should it take place must leave us & our Poster[279]ity nothing to hope but every thing to Fear, that a prejudic<sup>d</sup> or corrupt<sup>d</sup>. Ministry should se good at any time to impose on us. And as the doctrine of Passive obedience & non resistance is not less mischievous in Politicks than religion, and as we have an unquestionable right to use every lawfull means to ward off impending danger &c We resolve,

1<sup>st</sup>. Than the great end & design for which Men first formed themselves into Governmental Society and submitted to Government was the greater good of the whole, and not to enrich or agrandize one or a few.

2<sup>dly</sup>. That it is essential to this great end the greater good of the whole that all Laws be by the consent of the People either Personally or by their Representatives, Since without this Right they must ever be exposed to oppression from their Rulers.

3<sup>d</sup>. That it necessarily follows that no British Law can justly be binding upon us who neither have or (from our local scituation) possibly can have either personally or by Representative any equal share in the enacting them. And we therefore resolve in the spirit of the Law of the late colony of New Plymouth above an hundred years ago, "That no act, imposition Law or ordinance be made or imposed upon us at present or to come but such as (has or) shall

be enacted by the consent of the Body of Freemen or associates or their representatives legally assembled which is according to the free liberties of the free born People of England," and of the same purport have been the resolves of our own Parliam<sup>t</sup> or general assemblies to the present day.

4<sup>th</sup>. That we have reason therefore to complain that there are now in being sundry acts of the British Legislature the professed design of which is to raise a revenue in America and by which our property is by unconstitutional measures extorted from us & applied not to pay Brittain's Debts, but to support Revenue Commissioners &c in idleness & Luxury to the waste of our Property & danger of our morals. And in particular the late act of the British Parliam<sup>t</sup> which thro' artfull Ministerial contrivance allows the East India Cor. to export Teas to America charged with a duty payable here is craftily calculated to establish a revenue which if effected will probably render abortive all future opposition. And we must then be liable to all the variety of taxation which Brittain now pays on a Number of articles most necessary for the conveniences of life, besides a large tax upon our Lands, For the preventing whereof we resolve as far as in us lies to put an end to the use of all East India teas & peice goods, and to consider every person among us who shall hereafter, Buy sell, or use s<sup>d</sup> Teas or peice goods untill our grievences are redress<sup>d</sup>. (if not intentionally) yet Practical enemies to our Rights & Liberties.

5<sup>th</sup> That the declarative right of the British Parliam<sup>t</sup>. that they have a right to make Laws binding on the Colonies in all cases whatsoever is very alarming: the universality of this declaration evinces that our Religious rights are in danger as well as our civil. For as agreable to this declaration they have in fact deprived us of some of our civil rights & imposed Taxes upon us, so in conformity to the same declaration by an act of uniformity or otherwise they may impose any Religious Shackles upon us, and we know of no instance wherein a people have been deprived of their civil rights but that they have lost their Religious rights also, and from the nature of things they must or fall together.

[280] 6. That at the same time We so freely resolve & determine against submission to all foreign taxation: and that we are determined, by the will of God to stand fast in the liberty wherewith we are made free, and to hazard life itself rather than submit to foreign taxation. We also resolve to pay all obedience to our Provential Laws, and that we will not use our liberty as a cloke of licentiousness.

7 We greatly lament the want of a truly Patriotic spirit and that private views & interest are so apparently the governing motive of so great a part in this day of Distress & Danger; while every individual is interested in or can We have notwithstanding all our resolves & Determinations any prospect of a favourable issue unless our private interest give place to the Gen<sup>l</sup> good and we unitedly engage & use our utmost efforts, to promote it, and to that end we shall readily join not only with our Brethren in this Province but thro' this wide extended continent in every lawfull,

Just & constitutional measure for recovering & preserving inviolate all our civil & Religious rights & priviledges against all opposition whatsoever, and by this means (to use the words of his Majestys council) We hope to see happiness & tranquility restored to the Colonies, and especially to see betwixt great Britain & them a union establish<sup>d</sup>. on such an equitable Basis as neither of them shall ever wish to destroy. We humbly supplicate the sovereign arbiter of human affairs for these happy events.

[288] 1775 March 15<sup>th</sup>.

The Committee appointed the sixth of March Inst to prepare a covenant agreeable to the association of the Continental Congress, to be adopted by this Town offer<sup>d</sup> the same to the Town as follows (viz)

Association or Covenant. We the inhabitants of the Town of Braintree in the Province of the Massachusetts Bay: having taken into our most serious consideration the subject matter of the association enter<sup>d</sup> into by the Continental Congress, on Oct. 20<sup>th</sup>. 1774, and being determined to do every thing in our power, to confirm & establish that union which at this time so happily subsists among ourselves not only in this Town & Colony but also throughout the continent: and which we humbly hope may be blessed by heaven as the peaceable means of recovering & establishing our rights & liberties in such a manner as to hand them entire to Generations yet unborn have freely & voluntarily enter<sup>d</sup> into the following association, Avowing our allegiance to the King; our affection & regard for Brittons in all parts of the World, affected with the deepest anxiety & most alarming apprehensions, at those grievances & distresses with which British Americans are oppressed, and having taken under our most serious Deliberation the state of the whole British continent so far as our abilities & opportunities permitted, find that the present unhappy situation of our affairs is occasioned by a ruinous system of Colony administration adopted by the British Ministry about the year 1763, evidently calculated for enslaving these Colonies, and with them the whole British Empire. In prosecution of which system various acts of Parliam<sup>t</sup> have been passed for raising a revenue in america for depriving the american subject in many instances, of the constitutional tryal by jury, exposing their lives to danger, by creating a new & illegal trial beyond the seas, for crimes alledged to be committed in america; and in the prosecution of the same system several late cruel & oppressive acts have been passed respecting the Town of Boston and Province of Massachusetts Bay, and also an act for extending the Province of Quebec so as to border on the western frontiers of these Colonies, establishing an arbitrary Government therein & discouraging the settlement of British subjects in that wide and extended country. Thus by the influence of civil principles, and ancient prejudices, to dispose the inhabitants to act with hostility against the free protestant colonies, whenever a wicked Ministry shall choose to direct them.

To obtain redress of these grievances which threaten destruction to the lives, liberty & property of his majesty<sup>s</sup> subjects in No. america. We are of opinion that non importation non consumption & non exportation agreements faithfully adhered to will prove the most speedy, effectual & peaceable measures, and therefore We do for ourselves in particular as well as being members of said Town of Braintree firmly agree & associate under the sacred ties of virtue, honour & love of our country as follows.

First that we will not import from Great Britain or Ireland or from any other place, any such goods, wares or Merchandise as shall have been imported from Great Britain or Ireland nor will we from this Day import any East India from any part of the world, [289] nor any Molasses, Syrups, panales, coffee or piemento from the Brittish Plantations or Dominica, or wines from Madeira or the Western Islands, or foreign Indigo.

Second, That we will neither import or purchase any slave imported since the first Day of December last, and will wholly discontinue the slave trade; and will neither be concerned in it ourselves, nor will we hire our vessells nor sell our commodities or manufactures to those who are concerned in it.

Third, As a non consumption agreement strictly adhered to will an effectual security for the observation of the non importation. We as above solemnly agree & associate that from this day we will not purchase or use any East India Teas whatever, nor will we nor any person by or under us purchase or use any of those goods, wares or merchandise we have agreed not to import which we shall know or have any cause to suspect were imported since the first day of December last, except such as come under the rules & directions of the tenth article of the association of the Continental congress.

Fourth, The earnest desire we have not to injure our fellow subjects in Great Britain, Ireland or the West indias induce us to suspend a non exportation untill the tenth day of September 1775 at which time, if the said acts and parts of acts of the British parliam<sup>t</sup>. hereafter mentioned are not repealed we will not directly or indirectly export any merchandise or commodities whatsoever to Great Britain, Ireland or the West Indias except rice to Europe

Fifth, Such as are Merchants & use the British or Irish trade will give orders as soon as possible to their agents, factors & correspondents in Great Britain & Ireland not to ship any goods to them on any pretence whatsoever as they cannot be received in america; and if any Merchant residing in Great Britain or Ireland shall directly or indirectly ship any wares, goods or merchandise for america in order to break the said non-importation agreement or in any manner counterviene the same, on such unworthy conduct being well attested it ought to be made publick; and on the same being so done, we will not from thence forth have any commercial connexion with such Merchant.

Sixth, That such as are owners of vessels will give positive orders to their Captains or Masters not to receive aboard their vessels any goods prohibited by the said non importation agreem<sup>t</sup> on pains of immediate dismission from their service.

Seventh, We will use our utmost endeavours to improve our breed of sheep & increase their number to the greatest extent & to that end we will kill them as sparingly as may be especially those of the most profitable kind; nor will we export any to the West Indies or elsewhere.

Eighth, That we will in our several stations encourage frugality economy & industry and promote agriculture arts & manufactures of the country especially that of wool, & will discountenance & discourage every species of extravagance & dissipation and on the death of any relative or friend we will conform as near as may be to the association of the Continental congress relative thereto.

Ninth, That such as are venders of goods or Merchandise will

not take advantage of the scarcity of goods that may be occasioned by their association, but will sell the same at reasonable profits, and if any vender of goods or merchandise shall sell any such goods on higher terms, or shall in any manner, or by any device whatsoever violate this agreement, no person ought, or will any of us deal with any such person or his or her agents or factor at any time hereafter for nay commodities whatsoever

Tenth, In case any Merchant Trader or other person shall import any goods contrary to this association the same ought forthwith to be sent back again without breaking any of the packages thereof.

Eleventh, That the Com<sup>tee</sup> of Correspondence, the Com<sup>tee</sup> of observation in this Town together with John Adams, Elisha Niles Esq<sup>r</sup>. Mr. Joshua Hayward Mr. Eliphalet Sawen, Dea<sup>c</sup>. Benjamin Bass, [290] Dea<sup>c</sup>. Eben<sup>r</sup>. Adams, Mr. Seth Spear, Mr Sam<sup>l</sup>. Holbrook M<sup>r</sup>. John Vinton, Mr. Azariah Faxon, Mr. Eben<sup>r</sup>. Thayer 3<sup>d</sup>. Mr. Seth Turner, & Mr. Joshua Hayward Jr be one committee whose business it shall be attentively to observe all persons touching this association, and when it shall appear to the satisfaction of a Majority of s<sup>d</sup> Com<sup>tee</sup> within the limits of their appointment has violated this association, that such majority do forthwith cause the truth of the case to be published in the Gazette, to the end all such foes to the rights of British america may be publicly known & universally contemned as the enemies of american liberty & thence forth we respectively will break off all dealings with him or her.

Twelfth, That all Manufactures of this Country be sold at reasonable prices so that no undue advantage be taken of a future scarcity of goods.

Thirteenth And we do further agree & resolve, that we will not have any trade, dealings, commerce, or intercourse with any District, Town, Colony or Province in North America, which shall not accede to, or which shall hereafter violate said association of the Continental congress, but will hold them as unworthy of the rights of Freeman, and as inimical to the Liberties of their Country.

And whereas it is of the utmost importance that the salutary association of the Continental congress be effectually executed; and the plans of the foes to america defeated, who aided by Tyrannical power intend to import goods, wares & Merchandise prohibited by said association, by assistance of such Merchants & traders as to this intent shall basely prostitute themselves; and it will be extremely difficult to distinguish between goods imported before the first day of December last, and such as after s<sup>d</sup> day shall be imported & secretly dispersed throughout the Colony.

And whereas it is expressly recommended by the continental congress, to the Provincial Conventions and to the committees in the respective colonies. to establish such further regulations as they may think proper for carrying into execution their association, We do farther resolve, That from & after the tenth day of October next it will be indispensibly necessary that all goods, Wares or

Merchandize directly or indirectly imported from Great Brittain, or Ireland, Molasses, Syrups, paneles, Coffee, or Piemento from the British Plantations, or from Dominica; wines from Madeira or the Western Islands, & foreign Indigo, should cease to be sold or purchased in this Colony, not withstanding that they shall have been imported before the first day of December aforesaid; unless the acts & parts of acts of Parliam<sup>t</sup>. particularly enumerated in the close of this association be then repealed, and it is strongly recommended to the Inhabitants of this Town that from and after the said Tenth Day of October, they cease to sell or purchase, & prevent being exposed to sale within this Town any goods wares or Merchandize & above enumerated, which shall at any time have been imported into america, whether before or since the first day of December aforesaid, unless s<sup>d</sup> acts of Parliament shall be then repealed.

And it is strongly recommended to the Committee named in the 11<sup>th</sup>. article of this association, that they exert themselves in causing the same to be strictly executed, and that after the said Tenth of October, (unless the acts & parts of acts of Parliam<sup>t</sup>. as aforesaid are repealed) that they apply to all Merchants & traders in this Town, and take a full inventory of all the goods wares or Merchandize in their possession whether they shall have been imported before or since the first day of December, aforesaid, requiring them to offer no more for sale until said acts be repealed.

And if any Merchant, Trader, or others shall refuse to have an inventory taken or shall offer for sale after the said tenth of October, any such goods, wares, or Merchandize, it is expresly recommended to the above named Committee that they take the goods into their possession, to be stored at the risque of the proper owner untill the repeal of the acts aforesaid, and publish the Names of [291] such refractory Merchants, Traders, or Purchasers, that they may meet with the merits of enemies to their country, and it advised to the inhabitants of this Town that they by no means fail vigorously to assist & support their Committees in discharging this as well as all other duties of their offices.

Provided, always, That in case the last resolve in this association shall be recommended by the next gen<sup>l</sup>. American Congress & adopted by all the united colonies then it shall be & remain in full force & virtue otherwise to be void & of no effect.

And we solemnly, individually & Collectively bind ourselves under the ties aforesaid, to adhere to this association, until such parts of the several acts of Parliam<sup>t</sup>. passed since the close of the last War, as impose or continue duties on tea, wine, Molasses, Syrups, Paneles, coffee, Sugar Piemento, Indigo, foreign paper glass, & painters colours imported into america; and extend the Powers of the Courts of Admiralty beyond their ancient limits, Deprive the american subject of trial by Jury, authorize the Judges certificate to indemnify the prosecutors from damages that he might otherwise be liable to from a trial by his Peers, require oppressive security from a claimant of ships or goods seized before he shall be allowed to defend his property are repealed, and untill

that part of the act of 12 G. 3<sup>d</sup> ch<sup>r</sup>. 24 intituled an act for the better securing his Majestys Dock yards, Magazines, ships, ammunition & stores, by which any person charged with committing any of the offences therein described, in america, may be tried in any shire or County within the realm is repealed, and until the four acts passed in the last session of Parliament (viz)

That for blocking up the Harbour of Boston.

That for altering the charter & Government of the Massachusetts Bay, and that which is entitled, For the better administration of Justice, and that for the extending the limits of Quebec: are repealed

The foregoing association being Determined upon by the Town of Braintree very unanimously at a full meeting of the inhabitants March 15<sup>th</sup>. 1775 was ordered to be recorded in the Towns Book, and that every householder within s<sup>d</sup> Town be supply<sup>d</sup>. with a printed copy thereof by Elisha Niles.

[301] Declaration of Independence.

In Congress July 4<sup>th</sup>. 1776, A Declaration by the Representatives of the United States of America In General Congress Assembled.

When in the course of human events it becomes necessary for one People to dissolve the Political Bands which have connected them with another, and to assume among the powers of the Earth, the Separate and equal station to which the Laws of Nature and of Nature's God entitle them. a decent Respect to the Opinions of Mankind requires that they should declare the Cause which impel them to the separation.

We hold these Truths to be self-evident, that all Men are Created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness.

That to secure these Rights, Governments are instituted among Men deriving their just Powers from the Consent of the Governed, that whenever any Form of Government becomes destructive of these Ends, it is the Right of the People to alter or to abolish it, and to institute New Government, laying its Foundation on such Principles, and organizing its powers in such Form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be Changed for light and Transient causes; and accordingly all Experience hath shewn, that mankind are more disposed to suffer, while Evils are sufferable, than to right themselves by abolishing the Forms to which they are accustomed. But when a long Train of Abuses and Usurpations, pursuing invariably the same Object, evinces a Design to reduce them under absolute Despotism, it is their Right, it is their Duty, to throw off such Government, and to provide new Guards for their future Security. Such has been the patient sufferance of these Colonies; and such is now the Necessity which constrains them to alter their former systems of Government.

The History of the Present King of Great Britain is a History of repeated Injuries and Usurpations, all having in direct Object the Establishment of an absolute Tyranny over these States. To prove this let Facts be submitted to a candid World.

He has refused his assent to Laws, the most wholesome and necessary for the publick Good.

He has forbidden his Governors to pass laws of immediate and pressing Importance, unless suspended in their Operation until his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large Districts of People, unless those People would relinquish the Right of Representation in the Legislature, a Right inestimable to them and formidable to Tyrants only.

He has called together Legislative Bodies at Places unusual uncomfortable, and distant from the Depository of their publick Records, for the sole purpose of Fatiguing them into Compliance with his Measures.

He has dissolved Representative Houses repeatedly, for opposing with manly Firmness his Invasions on the Rights of the People

He has refused for a long Time, after such Dissolutions, to cause others to be elected; whereby the Legislative Powers, incapable of Annihilation, have returned to the People at large for their Exercise; the State remaining in the mean Time exposed to all the Dangers of Invasion from without, and convulsions within.

He has endeavoured to prevent the Population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new appropriations of Lands.

He has obstructed the administration of Justice, by refusing his assent to Laws for establishing Judiciary Powers.

He has made judges dependent on his Will alone, for the Tenure of their offices, and the amount & Payment of their Salaries.

He has erected a multitude of new offices, and sent hither swarms of officers to harrass our People and eat out their substance.

He has kept among us, in Times of Peace, Standing Armies without the consent of our Legislatures.

He has effected to Render the Military independent of, and superior to the civil power.

He has combined with others to subject us to a Jurisdiction foreign to our Constitution, and unacknowledged by our Laws; giving his assent to their acts of pretended Legislation.

For quartering large Bodies of armed Troops among us :

For protecting them, by a mock Trial from Punishment for any Murders which they should commit on the Inhabitants of these States :

For cutting off our Trade with all parts of the World :

For imposing Taxes on us without our consent :

For depriving us, in many cases, of the Benefits of Trial by Jury :

For transporting us beyond seas to be tried for pretended offences :

For abolishing the free system of English Laws in a neighbouring Province, establishing therein an arbitrary Government, and enlarging its Boundaries, so as to render it at once an Example

and fit Instrument for introducing the same absolute Rule into these Colonies.

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments :

For suspending our own Legislatures, and declaring themselves invested with power to Legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and Waging War against us.

[303] He has plundered our Seas, ravaged our coasts, burnt our Towns, and destroyed the Lives of our People.

He is, at this Time transporting large armies of foreign Mercenaries to compleat the Work of Death, Desolation, and Tyranny, already begun with Circumstances of cruelty and Perfidy scarcely paralleled in the most barbarous Ages, and Totally unworthy the Head of a civilized Nation.

He has constrained our Fellow Citizens, taken Captive on the High Seas, to bear Arms against their Country ; to become the Executioners of their Friends and Brethren or to fall themselves by their Hands.

He has excited Domestic Insurrections amongst us, and has endeavoured to bring on the Inhabitants of our Frontiers, the merciless Indian Savages, whose known Rule of Warfare, is an undistinguished Destruction of all ages, sexes, and conditions.

In every Stage of these Oppressions we have petitioned for Redress, in the most humble Terms : our repeated Petitions have been answered only by repeated Injurys ! A Prince, whose Character is thus marked by every act which may define a Tyrant, is unfit to be the Ruler of a Free People !

Nor have we been wanting in Attention to our British Brethren. We have warned them from Time to Time of attempts by their Legislature to extend an unwarrantable Jurisdiction over us. We have reminded them of the circumstances of our Emigration and settlement here. We have appealed to their native Justice and magnanimity, and we have conjured them by the Ties of our common kindred to disavow these Usurpations, which would inevitably interrupt our Connexions and correspondence. They too have been deaf to the Voice of Justice and of Consanguinity, we must, therefore acquiesce in the necessity which denounces our separation, and hold them as we hold the rest of mankind. Enemies in War ; in Peace, Friends.

We therefore the Representatives of the United States of America, in General Congress assembled, appealing to the Supreme Judge of the world for the Rectitude of our Intentions, do, in the Name and by the authority of the Good People of these Colonies, solemnly Publish and Declare, that these United Colonies are, and of right ought to be Free and Independent States : that they are absolved from all Allegiance to the British Crown ; and that all political connexions between them and the State of Great Britain, is and ought to be totally dissolved : and that as Free and Independent states, they have full Power to levy War, conclude Peace, contract alliances, establish Commerce, and to do all

other Acts and Things which Independant States may of Right do. And for the support of this Declaration with a firm Reliance on the Protection of Divine Providence, we [304] mutually pledge to each other our Lives, our Fortunes, and our Sacred Honor.

Signed by Order and in behalf of the Congress.

John Hancock, President.

Attest, Charles Thompson, Secretary.

The Freeholders and other Inhabitants of the Town of Braintree being assembled by adjournment from the anniversary meeting in March.

Voted, to take under consideration the Report of the Committee who ware chosen at their Last meeting, to consider of a Late act of the General Court respecting the due observation of the Lords day.

The said Report having had two readings in open Town Meeting, the Town Voted their approbation and acceptance of the same.

The Committees Report is as followeth viz.

That it is the humble opinion of your Committee that a strict and religious observation of the Lords day is one of the greatest charactersticks of a Christian People, that the supreme monarceh of the Universe hath an indisputable Right to ordain Laws binding all his rational beings in an absolute Sovereign manner, that this Great Governor of the world, hath revealed to man, that he hath made a special Reservation of one whole natural day out of seven for himself, which (according to the sacred Scriptures and the confesion of the most Learned part of the world) consists of

twenty four hours, wherein all our secular concerns ought in the most desent and devout manner be folded up to give way to the more important service of divine worship and adoration, and all our Laws and conceits of things ought to be regulated by scripture and not according to the Philosophy of the heathen or the superstitious opinions or traditions of man and when the Laws of any Kingdom or State cooperate with and are agreeable to the Commands of the Great Law giver, then and only then may such commuttees expect to enjoy divine favours and blessings prosperity in this and eternal happiness in a future state of existance, your Committee acknowledge it was surprizeing to them that our honourable Court should at this day when we are just amerging from the horrors of a most barbarous and unparraled war curtail a part of the forth Commandment by tolerating secular concerns or Servile Labour to be carried on six hours of the same to the great disturbance of every sober and Consciencious Person in this State for no other Reasons saith the Honourable Court than that because their a defirant opinions among the sober and Consciencious Persons of the same, Concerning the commencement of the sabath and lest they should be thought to lay unnecessary restrictions on the subject [6].

A very slender excuse indeed to whom ought we to hearken to the Great Governor of the world or to the Voice of the sober and consciencious People, a semmilar excuse once was given by a King of Gods antient People for his disobedience of a special command because he feared the People but the inspired Profits Introgative Answer was hath the Lord as great dilght in burn offerings and sacrifice as in obeying the Voice of the Lord behold to obey is better than sacrifice and to hearken than the fat of Rams. We cannot conceive that the diference of of opinion or the fear of the People ought to cause an abolition of that sacred command y<sup>e</sup> fourth Commandment but that it ought to have it due extent at one end or the other, perhaps in some future day this sober and Consciencious party may request an other part of six hours more to be abolished and so on, untill that Great and most Interesting command becomes null and void, not by the traditions of men, but by the Law of the state, to draw to a close in as concise a manner as a thing of so great weight and Importance will admit of your Committee are of opinion that a Remonstrance be preferred to the aforesaid honourable Court when assembled that there may be a revision of and amendment of the above cited Law that their be no part of the fourth Commandment abolished by Law but that it may have its full extent as revealed to us in the Sacred Scriptures that thereby the Blessings of him who hath ever held an holy jealousy over his Sabath may descend on this Continent and on every State of the same is the sincere wish of your Committee

To Colo<sup>l</sup>. Ebenezer Thayer

Sir. This Town having made Choice of you to Represent them in the Great & General Court this present year, apprehend it their indisputable Duty as well as undoubted right to instruct you relative to sundry important matters which ought so far to be a rule of your political conduct, as we have but just immergd from the horrors of a most tedious and unnatural war and taken Rank among the Regal Powers of the World, or ever had entered the possessions of that darling freedom which cost us almost everything that was dear.

The clouds are gathering over our heads pregnant with the most gloomy aspects, we abhor and detest violent measures. To fly to Clubs or Armes, to divert the impending Ruin the consequences of which would render us easy victims to foreign and inveterate foes. No as Loyal Subjects & Cytizens inflamed with true Patriotism we feel ourselves chearfully willing to lend our aid at all times in supporting the dignity of Government but in as much as there are numerous Grievances or intolurable Burthens by some means or other lying on the Good Subjects of this republic, Our Eyes under Heaven, are upon the Legislature of this Commonwealth and their names will shine Brighter in the American annals by preserving the invaluable Liberties of their own People than if they ware to Cary the Terror of their Armes as far as Gibraltar, we therefore under these considerations do instruct you that in the next session you give your close attention [47] attention and use your utmost afforts that the following grievances and unnecessary Burthens be redressed, viz.

First. That the Public Salarys of this Commonwealth be reduced in an equitable manner. We feel ourselves willing that every Public officer should receive a Quantum Meruit but not an extravagant salary. And also that the number of salary men be reduced.

2<sup>d</sup>ly, That the Court of Common Pleas and the General sessions of the Peace be removed in perpetuam rei Memoriam.

3<sup>d</sup>ly, that the money raised by Import and excise be appropriated to pay our foreign Debt.

4<sup>th</sup>ly, we are of opinion that there are unreasonable Grants made to some of the officers of Government.

5<sup>th</sup>ly, we object against the mode adopted for Collecting and paying the Last tax.

6<sup>th</sup>ly, We humbly request that there may be such Laws compiled as may crush or at least put a proper check or restraint on that order of Gentlemen denominated Lawyers the completion of whos modern conduct appears to us to tend rather to the distruction than the preservation of this Commonwealth.

7<sup>th</sup>ly, That the General Court be removed from Boston.

8<sup>th</sup>ly, That Real and Personal Estate be a tender for all debts when call'd for provided the Interest be punctually paid.

9<sup>th</sup>ly, That Certain premiums be granted to encourage our own Manufactures.

10<sup>th</sup>, That if the above grievances cannot be redres<sup>d</sup>. without a revision of Constitution, in that case for that to take place

11<sup>th</sup>ly, It is our earnest Request that every Town Clerk be a Register of Deeds for the same Town.

The foregoing instructions ware Read this day in Town meeting and the Town then Voted that their Clerk should serve their Representative with a Copie of the same and that he record them in the Town Book and that they be Published in the Public Print
